The notes are not suitable for all investors. You should read carefully the accompanying Pricing Supplement (together with all documents incorporated by reference therein) for more information on the risks associated with investing in the notes. **Any payment on the notes, including any repayment of principal, is not guaranteed by any third party and is subject to (a) the creditworthiness of Barclays Bank PLC and (b) the risk of exercise of any U.K. Bail-in Power, as further described in the accompanying Pricing Supplement.**

Phoenix AutoCallable Notes

Summary Characteristics of the Notes

- **Commissions**—Barclays Capital Inc. will receive commissions from the Issuer of up to 3.00% of the principal amount of the notes, or up to \$30.00 per \$1,000 principal amount. Please see the accompanying Pricing Supplement for additional information about selling concessions, commissions and fees.
- **Estimated Value Lower Than Issue Price**—Our estimated value of the notes on the Initial Valuation Date is expected to be between \$888.50 and \$948.50 per Note. Please see “Additional Information Regarding Our Estimated Value Of The Notes” in the accompanying Pricing Supplement for more information.
- **Potential for Significant Loss**—The notes differ from ordinary debt securities in that the Issuer will not necessarily repay the full principal amount of the notes at maturity. You may lose some or all of your principal if the notes are not redeemed, and the Final Value of any Reference Asset is less than its Barrier Value. You may lose up to 100.00% of your principal amount.
- **Potential Return is Limited to the Contingent Coupons, if Any**—The potential positive return you may receive on the notes is limited to the Contingent Coupons, if any, that may be payable during the term of the notes. It is possible that you will not receive any Contingent Coupons during the term of the notes.
- **Early Redemption and Reinvestment Risk**—If the notes are redeemed, you will not receive any additional payments on the notes and you may not be able to reinvest any amounts received in a comparable investment with a similar level of risk and yield.

Summary Risk Considerations

- **Credit of Issuer**—The notes are unsecured and unsubordinated debt obligations of the Issuer and are not, either directly or indirectly, an obligation of any third party. In the event the Issuer were to default on its obligations, you may not receive any amounts owed to you, including any repayment of principal, under the terms of the notes.
- **U.K. Bail-In Power**—Each holder or beneficial owner of notes acknowledges, accepts, and agrees to be bound by, and consents to the exercise of, any U.K. Bail-in Power by the relevant U.K. resolution authority, which may be exercised so as to result in you losing all or a part of the value of your investment in the notes or receiving a different security from the notes that is worth significantly less than the notes. Please see “Consent to U.K. Bail-In Power” in the accompanying Pricing Supplement for more information.
- **Historical Performance**—The historical performance of the Reference Assets is not an indication of the future performance of the Reference Assets over the term of the notes.
- **Conflict of Interest**—In connection with our normal business activities and in connection with hedging our obligations under the notes, we and our affiliates play a variety of roles in connection with the notes, including acting as calculation agent and as a market-maker for the notes. In each of these roles, our and our affiliates’ economic interests may be adverse to your interests as an investor in the notes.
- **Lack of Liquidity**—The notes will not be listed on any securities exchange. There may be no secondary market for the notes or, if there is a secondary market, there may be insufficient liquidity to allow you to sell the notes easily.
- **Tax Treatment**—Significant aspects of the tax treatment of the notes are uncertain. You should consult your tax advisor about your tax situation.

In addition to the summary risks and characteristics of the notes discussed under the headings above, you should carefully consider the risks discussed under the heading “Selected Risk Considerations” in the accompanying Pricing Supplement and under the heading “Risk Factors” in the accompanying prospectus supplement.
